Programs and projects

Collaboration is central to all the projects of the Money Wise Platform. Examples of projects include:

National Money Week

National Money Week was launched in 2010 with the aim of introducing financial education in the classroom. Almost half the primary schools participate in National Money Week through a variety of activities, such as guest lessons, financial education workshops or quizzes. An increasing number of secondary schools and school for vocational and higher education participate as well.

Pension3days

During Pension3days, over a hundred organizations employ activities aimed at pension awareness and helping people with their questions around retirement. Examples of activities include pension workshops, helpdesk, advice and online tools.

Financially healthy employees

Employers can play an important role in preventing financial problems for their employees. The Money Wise Platform aims to support employers by giving them help, tips and advice, mainly through website www.financieelgezondewerknemers.nl.
